

ICE announces extension to new employee guidance to I-9 compliance flexibility

WASHINGTON – U.S. Immigration and Customs Enforcement (ICE) today announced an extension of the flexibilities in rules related to Form I-9 compliance that was initially granted last year. **Due to the continued precautions related to COVID-19, the Department of Homeland Security (DHS) will extend this policy until Dec. 31, 2021.**

This extension will continue to apply the guidance previously issued for employees hired on or after April 1, 2021, and work exclusively in a remote setting due to COVID-19-related precautions.
